

AI Tool Vetting Checklist

Level 1 is your two-minute screen. Level 2 is the full record for tool requests and campus tech teams.

Level 1 — The Five-Question Quick Screen

- ☐ 1. Who is it for? Minimum age? Education product or consumer product? Teacher-facing or student-facing?
- ☐ 2. What goes in, where does it go? Would it tempt anyone to enter identifying info? Do prompts train models?
- ☐ 3. Works for every student? Screen reader, keyboard, captions, text scaling?
- ☐ 4. Enhancing or replacing? Does it support the learning or delete it?
- ☐ 5. What's my fallback? Could the lesson survive the tool disappearing?

All five pass → request through your district. Any fail → walk away.
